

Weekly Deal #1 \$1,650

POPES Electrical & Data Supplies have been distributing the LS (formerly LG) range of Industrial contactors and overloads for over 10 years. They have proven to be a reliable, well priced product with very few problems or issues for the electrical contractor over the years.

LS Industrial have recently released a new model of contactors and overloads so POPES Mitchell are clearing their stock of

the old GMC range to make room for the new models. This is a one off chance to pick up a wide range of contactors and overloads at a clearance price. This is a job lot and cannot be split up.

All products are brand new with manufacturer's warranty

First in best dressed. **This package would normally sell to the electrical trade for over \$4,700 (inc. GST).**

Specifications for the range of contactors and overloads below.

3 Pole Contactors

AC3 Rating	Coil Voltage	Auxiliary contacts	Frame Size	Qty
